Terrified Wife Held Hostage By Convict

Alta. Death Bus Made Crossing 'When Not Safe To Do So'—Jury

By JIM WHELLY

EDMONTON (CP)—A coroner's jury Friday found that 17 high school students died as a result of shock due to multiple injuries after school bus driver Frank Budney of Redwater, Alta., "proceeded on to the railway crossing just east of Lamont, Alta., when it was not safe to do so," about 8:55 a.m. Nov. 29.

The bus was ripped apart by a CNR freight train which the jury found was travelling at a speed "beyond what we consider safe" at the unprotected level crossing, 45 miles north-east of Edmonton. Provincial

coroner Dr. M. M. Cantor said the train was travelling at close to 54 miles an hour just before it started to brake.

The jury also found "from the somewhat conflicting evidence adduced at the hearing," which opened Wednesday, that Budney "came to a stop or near stop" before the collision which sent him and 23 of the students to hospital.

The verdict said Budney did not have a proper licence. Premier E. C. Manning, in his capacity as attorney-general of

Alberta, said after the verdict was read that his department had not decided whether it will take any action.

The six-man jury also made five recommendations: That the front of diesel locomotives be painted in the most easily visible color;

That they be equipped with a flashing headlight and a distinctive auxiliary horn or whistle for use in emergencies only;

That operators of school buses be required to stop at all railway crossings;

That while stopped, they open the entry door to give an unobstructed view and allow any warning sound to be clearly audible.

That regulations covering school bus drivers be rigidly enforced.

Duty-Free Cut

WASHINGTON (Reuters) — Luther Hodges, the new secretary of commerce, told the Senate commerce committee Friday that a cut probably should be made in the \$500 worth of goods which Americans can bring home duty-free from trips abroad.

HERE'S TALL TALE FOR THE BOYS!

MIAMI BEACH, Fla. (AP) — Four-year-old Allen Calarino fell off a dock into Biscayne Bay Friday.

Philip Davis, fishing nearby, made an accurate cast, hooked the youngster, reeled him in and gave him artificial respiration.

Allen is in good condition at hospital.

Commented Davis: "Thank goodness this one didn't get away."

Ottawa Fire Emergency

OTTAWA (CP) — A state of emergency was proclaimed today by Mayor Charlotte Whitton as all available city firemen sought to keep a blazing downtown fire from spreading from an old Ottawa church to other buildings.

Eyewitnesses said the firefighters appeared to be succeeding in their efforts to keep the flames restricted to the Dominion United Church, a 76-year-old landmark.

The flames have also ripped through Robertson Galleries, destroying more than \$20,000 worth of paintings and objects of art.

The state of emergency apparently was aimed at giving fire department chiefs authority to bring in all off-duty firemen and to take whatever steps are necessary to bring the flames under control.

Firemen prevented flames from spreading to the Centre Theatre, next door to the art gallery and church, but the movie house was reported damaged from smoke and water.

Church members and passersby dashed into the church shortly after smoke was spotted. They managed to carry the communion table and old records out into the street.

It was uncertain how or where the fire started.

Second-Largest 'Sputnik' Shot Into Orbit By Reds

LONDON (Reuters) — Russia launched a 6½-ton sputnik today, the Soviet news agency Tass announced.

This is the largest satellite launched since the first Russian sputnik soared into orbit in October, 1957.

Tass said today's launching was in accord with a plan for "perfecting space ships of increased weight."

The launching of a heavy artificial earth satellite was carried out today using an improved multi-stage rocket, Tass said.

It added the sputnik had gone into orbit successfully. "All the apparatus on board the sputnik when it was launched and when it began to orbit functioned normally," Tass said.

Its official weight was given as 6,483 kilograms, not counting the weight of the last stage of the carrier rocket, (a kilogram is approximately 2.2 pounds.)

Five Tots Die As Fire Guts Home

MANIWAKI, Que. (CP)—Five members of a family died early today when fire ripped through a frame home in this community 90 miles north of Ottawa.

The victims were the children of Mr. and Mrs. Aldrem Richard, ranging in ages from 2½ to 26.

The parents are in hospital here with minor burns after being rescued by a passerby along with a month-old Joseph, youngest member of the family.

Prison Work Party Escapee Surrounded By P.Q. Police

MONTREAL (CP) — Provincial police said today the wife of a guard at St. Vincent de Paul Penitentiary is being held hostage in her home by a convict who escaped from an outside work party.

Jury Urges Extra Guard

Information disclosed to the coroner's jury investigating the deaths January 23 of two Kelowna residents, in a bridge crash included a lift-span operator's report that 15 cars have gone past the barriers in the last two and one-half years.

This was only during one man's daily shift.

This evidence was given during an inquest into the deaths of Lance Swart and Harriet McDougall, of Kelowna.

The jury recommended strongly that "another set of barriers be installed on each side of the lift span to give more warning so that if one set were passed, a driver could bring his vehicle to stop before reaching the second set."

"The distance between the final barrier and the open water does not appear to be sufficient," the report added.

The jury declared the cause of death to be drowning.

The "manner" of death was intoxication, and failing to heed warning devices, the jury found.

A lift-span operator, a tugboat captain, and driver of a car following the Swart's vehicle, gave evidence.

William Treadgold was jury foreman and jurors were Joseph Mervyn, David Ritchie, Robert Thomson, George Vetter and Robert Dillabough.

Police at first believed two women were being held, but they later learned that the daughter of the guard escaped through the back door of the house when she saw the convict coming in the front.

Meanwhile, Maurice Leblanc, about 45, was undergoing an operation in hospital to have a bullet removed from his chest.

BULLETIN

Police identified the convict as Donald Polack, 22. He was alleged to have shot and wounded a passing salesman shortly after taking refuge in the house, where he is still held up.

Police said the convict—tentatively identified only as a man named Polack—opened fire as Leblanc drove past the house. The convict held his fire when an ambulance picked up the critically wounded man.

"We have no immediate plans to go in and get him," Detective Sgt. Roland Gilbert of the provincial police said. "We'll have to wait him out."

He said the convict had asked that everyone be withdrawn from the area and that he be allowed to see the prison psychiatrist.

He threatened to harm his hostage if a move against the house was made.

Well-armed and heavily-armed police guarded the front and rear entrances of the house and it was also under observation by police from a prison tower.

Egyptians May Release Zarb

CAIRO (Reuters) — President Gamal Abdel Nasser's regime dropped a hint today it would free a British prisoner thanks to a Montreal speech attacking Israel by British historian Arnold Toynbee.

The hint came in the newspaper Al-Ahram, controlled by the United Arab Republic president.

It said the case of Maltese-born British businessman James Zarb, sentenced in 1954 to 10 years imprisonment for espionage, is under review.

Al-Ahram said the review followed Toynbee's statement in Montreal that the Jewish treatment of Arabs in 1947 was morally comparable to the Nazis' extermination of Jews.

Monarch Watches Rescue Operation

MOULIN SOUS - FLERON (Reuters) — King Baudouin today watched rescue operations at this Belgian hamlet where at least 19 persons were feared killed Friday night under a noiseless avalanche of slag from a coal-using power plant.

Local Mill Hit By Fire

Fire struck S. M. Simpson Ltd. mill here today and it was believed considerable damage was done to the log cut-up section of the plywood division.

No one was injured. The fire department received the alarm at about 11:30 a.m.

The mill is normally closed Saturdays but repairs were being made at the time the fire started, it was reported.

Welding was being done inside the mill, the Daily Courier was told, but cause of the blaze is as yet undetermined.

A witness said the inside of the mill looked like "a blast-furnace" at one point.

N.Y. Ship Collision

NEW YORK (AP) — The 15,000-ton passenger liner Nassau and the Norwegian freighter Brott, both outward bound, collided in a snowstorm Friday night outside New York harbor.

LATE FLASHES

Explosives Man Held

VERNON (Staff) — William Toma, of Vernon, was today remanded in custody after facing a charge of possessing explosives. The incident arose as the result of the recent visit of Lieut.-Gov. Pearkes, court was told explosives were found in a Schubert Ave. home and also in a police vehicle.

Note Handed Over

MOSCOW (AP) — Foreign Minister Andrei Gromyko summoned U.S. Ambassador Llewellyn Thompson to the foreign ministry today and handed him a note. The contents are expected to be released later today by the Russians.

Reds Accept Delay

WASHINGTON (AP)—Russia today accepted a six-week delay in resumption of nuclear test ban negotiations.

President Kennedy had called for the postponement to permit his administration to study the U.S. position on prohibiting the testing of atomic weapons.

FATAL FIRE

Death came for at least seven elderly patients when this Washington, D.C. nursing home was swept by fire. Seven bodies were found on fourth floor when firemen probed the ruins. —(AP Wirephoto)

Power Continues In Limelight As MLA Attacks Columbia Plan

VICTORIA (CP)—Power continued to draw the limelight in the British Columbia legislature Friday, as yet another member in his maiden speech attacked proposals for international development of the Columbia river.

George (Tiny) Hobbs, six-foot six-inch CCF member for Revelstoke, described the proposed High Arrow dam on the Columbia as "an economic albatross around the necks of the people of B.C." and a death blow to the Kootenay Valley.

Opposition leader Robert Strachan, meanwhile, returned to the subject of Highways Minister P. A. Gallagher's eligibility to sit as a member of the legislature and Recreation Minister Earle Westwood commented on

B.C.'s "more gentle living" as a tourist attraction. Strachan rose after obtaining the permission of the house to make a statement on Mr. Gallagher's position as a member in the light of his recent \$1,000 contempt of court fine.

"Parliamentary ethics demand that the minister of highways resign his seat upon being found guilty of an offence which seriously reflects on the operation of his department," Strachan said in the prepared statement.

Attorney-General Robert Bon-

ner described Strachan's move as "a cheap, sly trick."

Premier W. A. C. Bennett said the house would not be lenient again in granting permission to Strachan to make a statement. The Opposition leader had raised the question of Gallagher's eligibility on the opening day of the session.

Strachan said he had decided not to press a motion for the minister's removal since it could not be passed without support of the government majority and would be a bar to further discussions.

U.S. Considering Lumumba For Inclusion In New Gov't

WASHINGTON (AP) — The U.S. government, searching for a solution to the tangled Congo situation, is considering the inclusion of leftist Patrice Lumumba in a broader, new Congo government.

Discussions aimed at reaching a compromise settlement in the Congo are under way both within the United Nations and through diplomatic channels, the state department said Friday.

The status of Lumumba, former premier now a political prisoner, is "an element of these consultations," said Lincoln White, department spokesman.

Lumumba's release has been demanded at the United Nations by the Soviet Union and many Afro-Asian nations. The United States has supported the regime of Congo president Joseph Kasavubu, who works with army strongman Maj. Gen. Joseph Mobutu. Mobutu has imprisoned the fiery Lumumba.

President Kennedy, in ordering a review of the Congo situation, has recalled Clare Timberlake, U.S. ambassador at Leopoldville, for consultation.

'BAD CONSCIENCE'

MONTREAL (CP)—The average white person in the southern United States has a "bad conscience" on the subject of racial segregation, a Virginia educationist said Friday.

Two-Car Collision Kills 3 Soldiers

SHARBOT LAKE, Ont. (CP) — Three young apprentice soldiers were killed Friday night in a two-car collision near this community 60 miles southwest of Ottawa.

Dead are: Gordon Lackey, 17, and John Goodbody, 18, both of Perth, Ont., and Howard Kinne, 18, of Hopkins Landing, B.C.

All were in training at Camp Borden military camp and were believed heading for a weekend holiday at Perth.

Four others were injured in the collision, including D. W. Foster, 16, of Burchell, Sask., in critical condition in Perth Hospital.

Slash Rates Urges Mike

CRANBROOK, B.C. (CP)—Liberal Leader Lester Pearson said Friday night deficit budgeting and lowering of interest rates are needed to ease Canada's national unemployment problem.

"These are good economic measures," Pearson told more than 200 persons at a public meeting, "the kind of thing they are doing in the (United) States. There is no doubt that we are in a state where natural production is not increasing to take care of the employment force."

"One way to get the economy to expand is to get our foreign trade going ahead. I see no reason why we should not sell our wheat to Castro's Cuba or Red China."

He cautioned that Canada should be careful not to exploit the "United States' difficulties with Cuba."

"We should not mistake our search for a Canadian national identity with shrilling, whining anti-American talk."

Road Conditions Good For 'Star'

VERNON (Staff) — Road and snow conditions on Silver Star are excellent, according to a pro-weekend report.

The road is down to dirt most of the way, since it was ploughed Thursday by Department of Highways crews.

Fresh, dry snow has fallen, bringing the week's accumulation of new snow to about six inches.

Temperatures are moderate on the Star, and there's plenty of sunshine. All Star facilities will be open through to Monday.

Despite excellent road conditions, motorists are warned that winter tires or chains are still necessary.

\$2,000 REQUEST

VERNON (CP) — City council has been asked for \$2,000 as its share in a three-way split for the Okanagan Valley Tourist Association. Kelowna and Penticton will be asked for like amounts. The sum is to be used for publicity to attract tourists to the Okanagan Valley.

Family Day Festivities Planned Despite Weather

VERNON (Staff) — Despite warmer weather, Family Day festivities are still on the schedule of Vernon's Winter Carnival.

The fun-filled, ten-day celebration winds up Sunday with events at the Fish and Game Club grounds.

"Family Day" chairman is Harvey Gee.

There's still enough snow to permit most of the events to come off as planned. Any changes in arrangements will be announced later today, according to a spokesman for the Winter Carnival Society.

There will be pleasure skating all day at one of the many outdoor ponds at the game club grounds.

In addition to tobogganing events and horse-drawn sleigh rides.

The young mushers quarter-mile marathon will get underway at 1:30 p.m. Family dogs will have an opportunity to take part in this race, pulling sleighs full of youngsters. Any type of dog, or sleigh can join in the fun.

"Young mushers," 12 years old and under, are eligible. Prizes will be awarded for race winners, and for the best decorated dog and sleigh.

Children's races will get underway at 2 p.m. There are competitions for youngsters in the eight to ten-year class, 10 to 12 years, 12 to 14 years, 14 to 16 years, 16 to 18 years, and for 18-years and over.

Some \$200 in prize money will go to the winner of the three-mile marathon race, open to all competitors young and old. This is one of the carnival highlights, and will be run in 12 laps on a quarter mile track.

The Okanagan senior hockey relay race will follow at 4 p.m. This event will be held on a one-mile course, with each skater carrying the baton for one lap.

Minor hockey clubs' relay races will commence at 4:15 p.m.

At 5 p.m., the women's auxiliary to Vernon Fish and Game Club will begin serving delicious chili dinners.

The Fish and Game Club grounds are situated seven miles south of Vernon, on the Commonage Road. Directional signs from town begin at the entrance to Polson Park. Plenty of parking space is available at the club grounds.

Lots To Do At Carnival

VERNON (Staff) — Dances, "squares" and modern, curling and hockey are on the program today at Vernon's Winter Carnival.

The men's Pot-O-Gold bonspiel continues at Vernon Curling Club, with finals slated for tomorrow.

Vernon Canadian's meet the New Westminster Luckies in an exhibition game, beginning at 9 p.m. in the Civic Arena. A highlight will be a between-period square dancing contest, with Iceworm badges as the prizes. It is rumored that the Luckies may enter the Okanagan Senior Hockey League next year.

An informal carnival dance will be held tonight in the Allison Hotel ballroom. Dress for the dance, which begins at 9 p.m., is optional. Tickets may be obtained at the door.

DOG PROBLEM

KAMLOOPS (CP) — Council has a dog problem. Dog lovers feel their pets should be allowed freedom—they claim their property is being damaged by frisky canines. Some aldermen have suggested residents be allowed to shoot intruders—others predict a shooting war between dog-owners and non-dog owners if this happens.

PLAN NO. RTB-1295
 AREA: 1293.75 SQ. FT.
 FRONTAGE: 52'-6"

MAXIMUM USE OF SPACE

Exceptional livability with maximum use of every square foot of space is provided in this four bedroom home of modest square footage, which is one of the most inexpensive houses for its site in the standard construction class.

The cathedral type entry makes a luxury size foyer, with plenty of daylight through the large window over the door. A feeling of spaciousness is given to the 12'6\" x 19' living room by the use of a stub wall at the entry—the living room opens onto a king size sun deck over the carport, which continues around to the back and provides access to the combination kitchen-dining-family room.

Design of this house allows a three dimensional function—the fourth bedroom adjacent to the kitchen could be used as a dining room by opening it up to the kitchen, or it could be a den or sewing room.

Vertical and horizontal siding combine with stucco to add to the exterior appearance of this very practical house, which could be enhanced by the additional of planters etc. when feasible.

A proposed "in-law" suite could be added to the basement area—blueprints are also available for this as well as for the plan itself.

Plan No. 1295 is designed for N.H.A. approval, and blueprints are available from the Building Centre, 116 E. Broadway, Vancouver, B.C. Write for free plan book, "Select Home Designs" enclosing 25c to cover cost of mailing and handling.

Ont. Snowstorm Sweeping Toward Maritime Provinces

By THE CANADIAN PRESS

A snowstorm swept out of Ontario early today and headed for the Maritime provinces, picking up punch as it moved east.

The wintry blast struck southern Ontario with snowfalls of between four and seven inches Friday. Up to a foot of snow and gale-force winds were forecast for Nova Scotia, Prince Edward Island and southern New Brunswick.

The western provinces had pleasant weather and were in store for more during the weekend.

A few snowflurries and mainly cloudy skies were forecast for Ontario today. Temperatures were expected to be in or around the 20s in both northern and southern areas.

Light snow was forecast for Montreal and Quebec City. For the first time in three weeks the mercury was expected to go above zero in Quebec. Montreal also expected moderating conditions.

A cold snap, which started Jan. 18, ended in the Maritimes Friday when temperatures reached the mid-20s.

FIRST AID TO THE AILING HOUSE

By ROGER C. WHITMAN

REMOVING WAX
QUESTION: We have a red brick fireplace. While polishing glazed brick in front, I tried the wax on the rough brick, instead of the shine I expected, it has a dull, grayish look; evidently the wax has gone into the brick. I have tried removing it with a brush and soap and water without success. What can I use to take this wax off? It was a liquid wax.

ANSWER: Because of the porous nature of the rough brick, the wax did penetrate. Try making a thick paste of powdered whiting or other absorbent powder and a nonflammable liquid spot remover and cover the brick surface with a one-inch layer of the paste; the remover may act as a solvent on the wax and the powder as a blotter to draw it out. When the paste dries, replace with fresh. Not always completely successful.

BUSTPROOFING PIPE POLES
QUESTION: We recently purchased used pipes and cemented them down for clothes line poles. They are flaked with rust. How can I prepare them for aluminum painting so that the rust will not come through?

ANSWER: Remove all loose and flaking rust with steel wool and turpentine. Then apply a rust-inhibiting primer, with a fish oil base, available most paint dealers. This works down through the remaining rust and combines with it to form a permanent bond.

FLATTENED WOOL RUG NAP
QUESTION: How can I bring back the nap of a wool rug? Something heavy must have rested on it before it was put down (it is a new rug).

ANSWER: Try using a fairly hot iron over a damp cloth, or a steam iron; don't press down on the iron. Then brush up the nap gently. Suggest writing to American Carpet Institute, Inc., 350 Fifth Ave., New York 1 N.Y. for a copy of their booklet "How to Care for Your Carpets and Rugs."

WINDOWS STUCK
QUESTION: We have inside windows which are stuck at the top. This is probably due to painting or dampness. We are having combination windows installed, and would like to get these windows down.

ANSWER: A small, serrated, edge, heart-shaped tool is available at many hardware dealers; when inserted between the sash and frame, it cuts the paint film and loosens the window. Or carefully tapping a wedge of wood between the sash and frame will also loosen the window.

WINTER WORKS IN SPRING WEATHER

City crews make the best of the prelude to spring experienced this week. Work, under the Winter Works program to help alleviate unemployment of the retaining wall, across the park. (Courier staff photo, copies available)

Steady Increase Noted In Library Borrowings

A steady increase has been reported in both borrowing and registrations at the Kelowna Branch, Okanagan Regional Library.

The adult total borrowing climbed from 9,350 in Jan. 1960 to 9,562 Jan. this year. Similarly, borrowings for juveniles' books have risen from 2,968 to 3,616 in the same period.

Grand total for the period showed a corresponding increase rising from 12,318 to 13,178.

There were almost exactly twice as many adult registrations as juvenile. Figures were 120 and 58 for a total of 178—two more than in January 1960.

More than 70 new books have been added to the library. These include, with authors' names first:

Madariaga, The Blowing up of the Parthenon; Woodard, Canadian Mortgages; Elchelberger, UN, the First Fifteen Years; Porter, To All Men; British Columbia, Chant Report; Ward, Pilgrimage for Plants; Cowan, The Mammals of British Columbia; Hauser, Mirror, Mirror on the Wall; Case, Applesauce; Needs Sugar; Grant, Trees and Shrubs for Pacific Northwest;

Gardens; Fisher, The Dog; Horizon, vol. 3, No. 3; Allen, Olympic Diary, Jan. '61; Trewin Plays of the Year, vol. 20, 1959; Armour, The Classics Reclassified; Majority of One, The Saturday book, 20 annual issue, 1959; Mann, Past and Present; Simpson, Chalmers, Fur Trade Governor; Stern, The Taste of Ashes; Ware (MacEwan), John Ware's Cow Country; Woolf, Sowing; Kenworthy, Leaders of New Nations; Tantri, Revolt in Paradise; Vetter, Hidden for a Thousand Days; Cowles, The Great Swindle; Blanch, The Sabres of Paradise; Moorehead, The White Nile; Phillips, The Tragedy of Apartheid; Blanchet, Search in the North; Rowlands, Spindrift from a House by the Sea; Arnov, Seedtime in the Cumberland; Brad, Homestead on the Kootenai; Morgan, Skid Road; Whitehead, Journey into Crime; Lewis, Studies in Words; Bounds, - Beaver Business; Deschlin, Say it With Your Camera; Beckett, Krapp's Last Tape; Cole, Kossow Town Boy; Phillips, Odd World; Wilhelmina, Lonely But Not Alone; Bryans, Summer Saga; Huxley,

President Of Canadian Chamber To Speak Here

President of the Canadian Chamber of Commerce, Capt. Joseph Jeffery, Q.C., of London, Ontario, will address members of the Kelowna Chamber of Commerce at a luncheon meeting to be held at the Capri Motor Inn on Monday at 12:15 p.m. The subject of his address will be "Let's Go Ahead—Now!"

As Capt. Jeffery will visit only Kelowna on this trip, invitations have been forwarded to all boards of trade and chambers of commerce in the Okanagan Valley and area.

Capt. Jeffery was elected president of the Canadian Chamber of Commerce at the 31st annual meeting held in Calgary in October last. He is widely known in Canadian business circles; is chairman of the board, the London Life Insurance Co., a director of the Toronto-Dominion Bank, vice-president of London Winery Ltd., a director of Redifusion Inc., secretary and director of Community Television Ltd., and a director of Hiram-Walker Goodenham & Worts Ltd.

WORLD BRIEFS

FAIR AWARD
QUEBEC (CP) — Emery Aoucher, manager of the Quebec Provincial Exposition, has been awarded the emblem of merit given annually by the International Association of Fairs and Expositions. He is the first Canadian to receive the prize since its inauguration in 1958.

MONEY MATTER
CHICOUTIMI, Que. (CP) — The policeman's brotherhood here has demanded its members be paid for attending gym classes after regular hours. The city already pays fees for the course, set up to keep officers in trim.

SHIP CARRIES ARMS
NEWCASTLE ON TYNE, England (Reuters) — A small Israeli cargo ship, laden with arms, sailed for an unknown destination after a rush loading operation Monday. Dockers loaded 14 Centurion tanks and torpedo warheads into the 2,300-ton Kinard during the afternoon as fire units and police stood by.

HOME-MADE
PEMBROKE, Ont. (CP) — Heavy snows here don't bother William Mielke. He clears his property with his home-made tractor. The machine, powered by a small four-cylinder car engine, was three years in the making and cost him about \$300.

TREND TO TOWERS
VICTORIA (CP) — The famed lightship Swiftsure, guarding approaches to Juan de Fuca Strait, may be replaced by a tower. Canada has already changed some of her west coast navigation aids to "Texas Towers" on recommendation of the U.S. Coast Guard.

Fourth 'R' Outlawed In School

VICTORIA (CP) — It's strictly reading, 'rln' and 'rthmatic' in Sooke school district. A fourth 'R'—romance—has been outlawed.

School board officials issued orders this week prohibiting handholding and after-school strolls. Boys and girls are being kept apart from the time they board school buses in the morning until they get off the bus at home in the evening.

Less than five per cent of the students in the two high schools and eight elementary schools was involved in incidents which prompted the ruling, says trustee John Williams. The behavior of the majority is "beyond reproach."

Ron Weil, chairman of the board, says the action was brought about by "pressure from parents." He declined to disclose the nature of the complaints.

Boys are forbidden to sit with girls in the same class; students can't sit in cars or leave the school grounds and teachers are required to keep a close watch on both buildings and grounds. James Kinnear, president of the area's Parent-Teacher Council, thinks the rules are a good idea but some of the students say the school board has gone to an extreme.

"We're not allowed to go across the street to a general store," said Joanne Tinker, a grade 11 student. "When you need a note from home to buy a chocolate bar it's getting ridiculous."

"There's no necking at our school," said Ken Pringle, a grade 9 student. "If the school board wants to segregate us they had better start building different schools—one for the boys and one for the girls."

Department of education officials said they have heard of similar "crackdowns" in other centres. Such problems usually do not come to their attention unless they involve interpretation of the Public Schools Act or a department directive.

The rules apply to elementary schools as well as junior and senior high—except elementary pupils aren't forbidden to sit in cars. Students may be expelled for "persistent disobedience" of the directive.

Cities Must Go Out To Get Industry

"If your city wants new industries go out and get them, they won't come to you."

This was the simple formula prescribed for Moose Jaw by Frank W. Collins, manager, department of Industrial Development, Canadian Pacific Railway, Montreal.

The same thing applies to all other Canadian towns and cities he told the Moose Jaw Chamber of Commerce at its annual meeting.

"Canada has a booming industry," he said, "but when it comes to getting a new industry for the community you have to go out and fight for it. Competition is getting stiffer all the time."

This can be done only by citizens with an outlook toward the future and with the full financial backing of the community. But the dividends are big; make no mistake about that.

24 MORE DAYS

Licence Plate Sales Up On Past Years' Records

Motorists in B.C. have just 24 more days grace with 1960 licence plates before purchasing new ones. In Kelowna, sales of '61 plates are surging ahead of former records in most categories.

To date largest increase in sales has been passenger car plates of which 1,275 have been distributed compared with 905 this time last year.

E. Ross Oatman, government agent, said today "sales are going much better than last year." Commercial plates are up 130 to 115 as are sales for class C chauffeur 90 to 70.

"We are selling about 150 a day," he said.

Those persons who have not received their 1961 registration cards should either come to the licence office or write the supervisor of motor vehicles. A number of cards sent out by the Kelowna office were returned marked "undeliverable".

Anyone who would rather not get involved in the last minute

rush should buy their plates before the week of the 20th, said pretty hectic then, he added.

BUTTERFLIES NOW TRYING TO MUSCLE IN ON GROUNDHOG

Who says we have to have groundhogs to tell us what the next six weeks' weather will be?

G. N. McTavish of Mission says we certainly do not need them. Because, he says, the butterflies are doing it for us.

Yesterday one flew right into his house through the front door, a welcome guest if it presages spring. Mr. McTavish brought the butterfly into the Courier's editorial department as proof.

It was somewhat reminiscent of the little Christmas rose from Peachland. Both are certainly evidence of the wonderful Okanagan weather.

D. Stewart Will Head Interior Ops.

At a party at the Capri Motor Inn Friday to mark the occasion, Martin Paper Products Ltd. announced the appointment of D. H. Stewart, as manager of its interior operations.

Mr. Stewart, who will take over his duties in Kelowna shortly after March 1, has been office manager for the company's Vancouver branch. He joined the firm in 1955.

Those attending the party included Joe Foley, president of McMillan - Bloedel, Power River; G. H. Townsend, general manager of Martin Paper Products Ltd., and other company officials.

Other guests included representatives of industry and civic government, from the Kootenays, Okanagan and the Cariboo territory, which will be under Mr. Stewart's jurisdiction.

Sudden Death Of C. D. Barchyn

Gilbert Daniel Barchyn of 1380 Richter Street, died suddenly on Wednesday. He was 68 years of age.

Born in Winnipeg, he was a steam engineer for most of his life. Mr. Barchyn was with the B.A. Okanagan at Calgary for 1943 years before retiring in 1957 and coming to Kelowna.

Funeral services will be held at the Garden Chapel today at 2:00 p.m. with Rev. C. A. Friedrich officiating. Interment will follow in the Garden of Devotion at Lakeview Memorial Park.

Mr. Barchyn is survived by his wife, Mary, at home. He was predeceased by a daughter in 1943.

Clark and Bennett have been entrusted with the arrangements.

POLICE COURT

IN CITY COURT: Angelina Able from the Westbank Indian Reserve was fined \$15 and costs for being intoxicated off the reserve.

Reginald Stubbs was fined \$100 and costs for driving while impaired. He pleaded guilty to the charge.

George Bocra, \$15 and costs for failing to stop at a stop sign.

John Edwards, \$25 and costs for being intoxicated in a public place.

John Melvyn Gunn, \$25 and costs for speeding in a 30-mile zone, and \$10 and costs for driving with an expired licence.

Donald Burch, \$30 and costs for speeding in a 50-mile zone.

CPA 1960 Service Highest Since '42

VANCOUVER — Canadian Pacific Airlines carried 350,991 passengers in 1960—more than any other year since the company's inception in 1942, it was announced here today.

Reflecting the steady growth of the company, CPA carried 15.6 per cent more passengers on its domestic and international routes in 1960 than in 1959. As in 1960, the 1959 total topped all previous passenger traffic records.

As a result of the increase in the number of passengers carried last year, the occupied seat-miles performed by the airline reflected a corresponding increase. In 1960, occupied seat miles totalled 544,132,000—an 18.9 per cent increase over 1959.

The highest point on the Hawaiian Islands is Mauna Kea, an extinct volcano 13,784 feet above sea level.

WHAT'S AT THE MOVIES?

"PORGY AND BESS"
Samuel Goldwyn's "Porgy and Bess," acclaimed as one of the top-ten films of the year, will come to Kelowna for 3 days starting Mon., Feb. 6, at the Paramount Theatre. The beloved musical entertainment, in color by technicolor, with the complete George Gershwin score, stars Sidney Poitier as Porgy; Dorothy Dandridge as the lovely, sensuous Bess; Sammy Davis, Jr. as the delightfully evil Sportin' Life; and Pearl Bailey as the earthy, lusty Maria.

"Porgy and Bess" began its musical existence as a stage hit which made theatrical and musical history on both sides of the Atlantic. The Samuel Goldwyn motion picture version preserves the exciting, rousing flavor of the violent and passionate love story and brings every one of the George Gershwin melodies to the screen with such fidelity that it was awarded first prize for the best sound track of the season.

"SIGN OF ZORRO"
Walt Disney Studios preserve to the "hill" the prowess of a fabulous character created by Johnson McCulley's novel of 75 years ago, when Zorro, a masked rider against evil-doers of the Spanish-California era, undauntedly protected "poor-against-rich" by dashing off madly astride his great horse Tornado to "do the villains in".

This one opens at the Paramount on Thursday, Feb. 9, for three days of unadulterated "Hollywood".

WHITE ELEPHANT PROFIT

NEW WESTMINSTER (CP) — The city's parking ramp, termed a "white elephant" when it was built, made a profit of \$32,490 last year. Coupled with the 1959 surplus, the ramp has produced enough money to meet the 1961 interest and debt repayment with nearly \$2,000 left over.

GUEST EDITORIAL

What Is Youth?

What is youth? Youth is that part of life between childhood and manhood. It could be called that growing up period. It is the time when of necessity an individual is dependent upon others, mainly those in the home.

Every youth has two parents—mother who gave the child birth and father who looks upon both as his care and responsibility.

Youth soon grows up and makes himself known to those about him. This is his right. In his growth three great forces make impact upon his life—the home, the school and the Church.

The home is where we are trained. What is there in youth to be trained? That with which he was born. The inherent qualities of youth are to be developed by both parents in order that the feet of youth may be placed on solid ground along life's pathway.

Herein must come religious training both in word and action. Some parents give more of one than of the other, but if either is neglected the child is the loser.

The school builds on what the home has begun in the child's mind and heart.

If it were ever true that the purpose of the school is to fill the mind of the child to the full with all it can contain and next year take more, it is more true that to draw out effort is greater than to satisfy a want.

Have we not seen and heard, teachers great in mind, open doors and windows through which we have looked with delight. They have done something to our mind, and we will not be the same again. Truly education is both experience and growth in mind and heart.

The church is where we send our children (some parents go with them) for what is essentially religious training. Christ is the head of the Church. His people are His Hands. In youth's hands are powerful forces which He Who gave His life for us on Calvary could use to bring good life, eternal and abundant, to needy, sinful, frustrated people the world over.

What all three forces put into the life of youth will come out in the nation. On Jan. 30 Christian Youth Week began. May it be a week of great decisions.—REV. S. PIKE, Retired, The United Church of Canada.

Africa: 1960 Decisive Year

Looking back at the momentous past year the outstanding fact is not the Congo disaster which overshadowed the African scene, but that the greater part of the continent peacefully and confidently achieved its independence, and that the roadblocks were cleared for most of the remaining colonial territories to follow suit.

It is unfortunate that bad news so often drives out the good so that the blurred impression left on the public mind is that of a continent in trouble. Nothing could be more misleading.

Africa, like every other continent, has its difficulties and its trouble-spots; what must one expect from a continent that in a single year has advanced more rapidly than any other continent in history? The surprising thing is that the process of decolonisation is proceeding so smoothly and efficiently.

The achievements in 1960 can be told in a few figures. The year started with only ten independent African states holding a total population of 96 millions; by the year's end there were 27 independent countries with a population of 178 millions.

One is less impressed, however, by these global figures than by the actual achievements of many of the new nations. The outstanding example is undoubtedly Nigeria. No country in Africa is so vast and diverse. Holding more than one-sixth of all the African peoples, she is three Congos rolled into one. Yet at her moment of independence the Nigerian leaders achieved a unity and harmony that is, so far as is known, without parallel in a country as complex as theirs.

With the formidable "Zik"—Dr. Nnamde Azikiwe—as governor-general, the tough but cautious Alhaji Sir Abubakar Tafawa Balewa as prime minister, and the trenchant Chief Obafemi Awolowo as the leader of the opposition, Nigeria offers a complete answer to the jeremiahs who lament the passing of colonialism.

Though perhaps less well prepared than Nigeria to take the strains of economic and political independence, the coming to nationhood of the 14 former French colonial and trusteeship territories is remarkable for several reasons.

Firstly, the speed with which the leaders of these territories decided to push for their autonomy and the fortunate willingness of France to respond to their challenge made possible a peaceful transition which shows that Guinea's struggles may not have been altogether in vain. And secondly, the emancipation of 32 million Africans in the French-speaking communities took place without serious internal difficulties in any of the 14 countries. The unfortunate internecine struggle in the Cameroons Republic was a heritage of earlier times; and the rupture in the Mali Federation between Senegal and the Sudan fortunately did not seriously jeopardize the political set-up of either of the two states.

Despite the gloomy forebodings of the pessimists, the three million Somalis achieved their new unity with considerable goodwill and commendable flexibility.

Thus of the 17 African states which came to independence in 1960 only one—the former Belgian Congo—failed to make the grade at the first attempt. Since it was the one country which had been least prepared for this important step, its failure is not altogether surprising.

Among the other notable advances there is especially Kenya and Tanganyika. In the latter case we have the example of a poor but determined country, admirably led by Mr. Julius Nyerere, and its winning of a large measure of internal self-government and putting itself well on the road to independence.

But the most sensational break-through came in Kenya, one of the most troubled of all colonies. With the decision that political power will ultimately be transferred into the hands of elected African leaders, Kenya has at long last turned its back on the impasse which has caused so much bitterness in the past.

One of the obstacles in East Africa to creating a powerful new independent federation is the reluctance of the traditionalist-minded Buganda government to come to terms with the rest of Uganda. But although its internal crisis has not yet been finally resolved, the firm policies of the colonial secretary, Mr. Iain Macleod, in resisting any attempt at "balkanizing" Uganda, looks like winning widespread support not only in that protectorate but throughout East Africa as well.

Finally, in Central Africa a start has been made on tackling the awkward realities of the federation as it now exists. Here the statesmanlike Monckton Commission blew a gust of fresh air through the long-standing controversies, and clarified the fundamental problems.

Nyasaland has already started on a new path with the probability of an elected African majority in the legislature. And Northern Rhodesia looks like achieving a similarly satisfactory result. The most difficult problem still remains Southern Rhodesia, but there again the year ended with the important agreement between the prime minister, Sir Edgar Whitehead, and the nationalist leader, Mr. Joshua Nkomo, to meet round a table with other parties to discuss a new constitution.

Seen in this wider perspective—with the failures set against the advances—there is little doubt that future historians will treat 1960 as the decisive turning-point in the fortunes of Africa. How can they do otherwise when, by the year's end, Africa had won for itself the right to more than a quarter of the seats in the United Nations? And there will be more next year.

BYGONE DAYS

10 YEARS AGO

February, 1951

On Tuesday night members of the Kelowna Club "burned the mortgage" in an informal ceremony performed by E. M. Carruthers and Charlie Quinn. The ceremony marked the clearance of all debts the club had incurred at the time the new building was erected three years ago.

20 YEARS AGO

February, 1941

A Kelowna cow has highest milk production for two-year-olds in all of Canada, according to a list published by the Canadian Jersey Cattle Club. The cow, Sunflower Pegg's Sweet Clover, is owned by W. T. J. Buhman of Kelowna.

30 YEARS AGO

February, 1931

The Okanagan Centre Badminton Club played a return match with the Rutland shuttle players on Thursday evening, winning 3-2. The match was a very close one, with the Rutland players leading 2-1 at one time.

superiority, though not to so marked an extent, winning 14 games to the Rutland players' seven. Refreshments were served after the tournament and a very enjoyable social time was spent until the early hours.

40 YEARS AGO

February, 1921

The billiard tournament which has been in progress at the "Canteen" billiard parlors for some weeks, was concluded last evening, when the final was played between Angus McMillan and Fred Paul. McMillan won quite easily, leading all the way.

50 YEARS AGO

February, 1911

The Penitence hockey team trimmed the Kelowna on Friday evening, at Fuller's. The game was a close one, with the Penitence leading 4-3 at the time of the final whistle. However, being wrongly given the goal umpire, as it was, the game was a draw. The puck never went through.

CANADIAN BRIEFS

SLOW CROW

SUDBURY, Ont. (CP)—Crows generally are credited with high intelligence but there are exceptions. A crow seen on a lawn in this northern city is believed to have lost his bearings and forgotten to go south for the winter.

DRY DOCK

SAINT JOHN, N.B. (CP)—The Royal Canadian Navy's first frigate, Outremont, is in dry dock here for her 12-week biennial refit. A veteran of Second World War anti-submarine duty, she was recommissioned here in 1955.

MICROWAVE NETWORK

MONCTON, N.B. (CP)—The New Brunswick Telephone Company has opened a \$1,000,000 Moncton - Campbellton microwave network to carry long distance telephone traffic and television programs in color or black and white. It is part of a \$4,000,000 microwave system which eventually will blanket New Brunswick and Nova Scotia. Moncton is about 150 miles from Campbellton.

THE CAUTIOUS FIREMAN

LETTERS TO THE EDITOR

BRIDGE SAFETY

The Editor,

Kelowna Daily Courier

Dear Sir:

From letters and your editorial, re-lift span on the bridge.

Seems to me, something could be done to warn motorists in a better manner.

There are no drivers who do not make an error now and then, although good drivers errors are only slight ones. However, one would only have to make an error once on our bridge.

Let's say a railway crossing signal was put, a 100 yards beyond the present red light, and the barrier moved back a little.

Now, when the tug, blows the whistle for bridge to open, the railway crossing signal would go on at once, also red lights. It takes a few minutes to reach the bridge, and cars that are already passed the crossing signal and red lights, would have time to go over span.

From the time the crossing signal and red lights go on, there would be a space of nearly 10 minutes, before span starts to go up.

You will note the letter, from that Vancouver family, where the red light only came on, as they had passed it, and that was not carelessness. It simply happened that way, and another accident could have happened.

But the whole thing could be made fool-proof. If the CPR and CNR go together and build a line from Kelowna to joint CPR line at McCullough. Railways have built railroad sections, as bad, if not worse than what would be met here.

Then Peachland and Summerland could be serviced from Penitence. There would be no need to open the span after this was done. Also freight service would be speeded up, the modern way. I wonder if the railway companies were ever approached on this matter.

By allowing full discussion of this subject in your paper, we may be able to get some good plan that would work, and improve conditions.

P. L. BOURQUE,

624 Harvey Ave., Kelowna

AMAZED AT EDITORIAL

The Editor,

Daily Courier,

Kelowna.

Dear Sir:

Though I often find myself in agreement with your editorials, I confess that I was amazed at the editorial which appeared in connection with the accidents on the bridge. Excuse me for saying so, but they seemed to give the impression of being face-saving tactics for somebody.

In 1959 I suggested a gate to rise with the lift-span. This, your paper says, would mean almost certain death to a fast driver who struck it, and so he may as well be drowned.

I cannot believe the writer of that article could have been serious, for he must surely believe that the driver's foot would be on the brake before striking the cross-arm, and by the time he broke through and reached the edge, his speed would be reduced. It was reported that the truck, which went over last week, was seen creeping to the edge. To drop into seventy-five feet of water, surely would be more dangerous than to be prevented, by a strong barrier, from doing so. Also, the driver would have a still better chance if the present barriers were moved farther from the span, as suggested previously.

We are now told that, as long as people are careless, there will be accidents which all the safety regulations in the book could not prevent. Even so, to follow such an argument to its logical conclusion would result in scrapping all safety rules.

I am certain that the compensation board encounters no opposition from Kelowna, in its insistence on safety precautions for the operators of the bridge; and I feel sure that had the siren (which the government installed for the safety of the public) come under their jurisdiction, they would not have allowed it to be silenced.

During the half-century of ferry service, I am not aware of one fatal accident. A car did go overboard, on one occasion, before the installation of a solid gate, as now suggested for the bridge. What is more, there were no fatal accidents on the bridge until the siren had been silenced.

Never have I heard of opposition to the recommendations made by any coroner; and why there should be opposition to additional precautions on the bridge, after two fatal accidents, is a mystery. If Kelowna is not expected to foot the bill, why all the objections which come from that side of the lake?

Has their dislike for the siren, so affected the thinking of some, that they feel obliged to say "All is well"? Suppose a prominent Kelowna family was a little too slow in applying the brakes; what then, I wonder, would be the reaction of residents of your city?

If the railways are doing away with "wig-wags," that is no proof of their wisdom, nor does it indicate that such signals would not be an asset to the bridge; it may even be that one of those companies would be pleased to donate a couple of their discards.

Yours respectfully,

A. E. HEWLETT,

Westbank, B.C.

(Editor's Note: This is the second letter from Westbank which carries an inventory of the number of Kelowna citizens who have advocated additional safety measures on the bridge. This we do not believe to be true. However, one does wonder why these writers do not give to those with different views the same assumption of sincerity of viewpoint which is given them? We believe the letter-writers on both sides of the lake are prompted by a sincere desire to reduce such accidents to the very minimum. However, in this, as in all questions of public interests, there are differing viewpoints. Surely, any person reading the letters which have been carried on this page must be impressed with the number of Kelowna citizens more than from the Westside—who have advocated additional safety measures.)

Had we not the highest respect for Mr. Hewlett, we would find ourselves both resentful and annoyed by his suggestion that we were "face-saving" for "somebody." This definitely is not the case. Our remarks were our own. We have not yet been approached on this subject or discussed it with any municipal official, any representative of the department of highways or any representative of the provincial government in any capacity.

As for "face-saving," what need is there? And whose face? Surely the results of the coroner's inquest should suggest the operation of the vehicle and not the safety precautions were at fault?

There are many other remarks in the letter which are so weak that they destroy the whole intent of the letter. How, for instance, can the writer assume that when striking a steel barrier such as he advocates the driver would have applied his brakes already and reduced his speed. If this is the case, as he would have ample room to stop, why not use the wooden barrier?

The purpose of the barrier is to warn, an additional and sure thing, and the lights not be seen and the ball not be heard. However—as we have us up.

many on this page—because so many of the drivers on the bridge deliberately and consistently drive above the speed limit, it is for this reason we do think that moving the west barrier some distance to the west would assist some of the careless drivers to avoid going off the open span.

While we have not the writer's half-century of ferry service background, we do have twenty years and, despite his assertion that he does not recall one fatal accident, we are very certain this newspaper has carried reports of at least one and we think, two.

When the letter writer impudently to the people of the east-side (We hope he noticed the recent letter from a Winfield truck driver) insincerity and callousness, we think that he is not only being entirely unfair but also ill-advised and not serving his cause well. If he has a good point, surely, if it is a strong one, it could be made without attacking those who are sincere as he is in their desire to eliminate, insofar as possible, a recurrence of these fatal accidents.)

The cartoons, usually depicting a minister in some rib-ticking situation, are designed to show that the church and its clergy have a human side.

In one he depicted a senior minister giving advice to a newcomer. And keep your visits brief—no discussing politics or religion."

Another showed a minister concluding a marriage counseling class by saying: "... And finally before you choose a November wedding date, please find out when the Grey Cup game is."

A third showed a couple leaving church, the woman saying to her husband: "We attend every Easter and he still doesn't remember our name."

CLERICALURES

The cartoons have appeared regularly in the United Church Observer in Canada during the last five years.

Some of the best have been collected into a special edition published by Ryerson Press of Toronto under the title Clericalures.

But cartooning is strictly a hobby for the hard-working 33-year-old Canadian who since his arrival here in 1959 has injected new life into the work of what was formerly known as the Canadian Mission.

Because Trinidad, a member of the West India Federation, is to become self-governing later this year, the name of the mission has been changed to the "Presbyterian Church." It is headed by a Trinidadian and has powers of self-government. Mr. Purdy, now chaplain to

Presbyterian secondary schools and colleges in Trinidad, makes his headquarters at Naparima College in San Fernando, Trinidad's second largest city.

Since he arrived here he has established the island's first travelling Bible school, founded an amateur radio society and helped to set up the Alcoholics Anonymous groups.

WAS RCAF CHAPLAIN
A graduate of Victoria College at the University of Toronto, Mr. Purdy was ordained in 1952 and served at Creighton Mines, Ont., and Applewood church, near Toronto, before volunteering for overseas mission work. He also served four years as chaplain in the RCAF Auxiliary and had special training in clinical counselling and psychiatry at the Toronto General Hospital.

Of all his accomplishments here, he is perhaps proudest of his Bible caravan. He said the idea behind the caravan is to educate people by making students share their experiences with others.

OTTAWA REPORT

Best Use For Tax Dollars

By PATRICK NICHOLSON

Perhaps the most important function of our elected representatives in Parliament is to ensure that our hard-earned but lavishly grabbed tax dollars are spent to best advantage by the government.

By this yardstick, no less than 260 of our M.P.s. last week fell down on their job. (There are at present four vacancies in the House of Commons, caused by death or resignation).

The single remaining M.P., the only one who in this respect expressed his grievous worry that our tax dollars are being mis-spent, was Chesley Carter, the serious-minded 58-year-old educationist who has represented Newfoundland's Burn-Burgo riding as a Liberal for nearly twelve years.

Chesley Carter was speaking on the subject of the Canadian Broadcasting Corporation. He was not urging that we should not support that nationwide radio and television service with our tax dollars: he was more importantly protesting that Parliament, which is the direct master and paymaster of the CBC, is miserably failing to perform its function of ensuring that the CBC devotes its resources in the best interests of the nation.

PAY RED PIPERS
"As a member of Parliament, who is concerned about the security of Canada and the threat to our freedom," Mr. Carter told his fellow M.P.s. "I must say I am frightened at the amount of brain-washing and subversive propaganda which goes out over the CBC day after day at the taxpayers' expense."

That is a grave charge: that the hired servants of you, the taxpayers of Canada, are so abusing their terms of employment and their trusteeship of your money that they are using your employment and your cash to brain-wash and subvert you.

Such a charge is serious enough to warrant investigation by the RCMP.

"I am appalled," continued the experienced Liberal M.P., "at the extent to which the CBC provides a national platform for subversives, from which issues a barrage of ideas and points of view which have their origin in the Kremlin."

BUT THEY CALL IMPROPER TUNE
Mr. Carter spoke of the CBC weakening Canada by propagating a foreign ideology, by emphasizing false issues such as "better Red than dead."

"There are many indications of a growing disquietude among the Canadian people with regard to this aspect of the CBC's operations," he said. "I personally have seen and heard enough of the programs put out by the CBC to be able to give positive evidence in support of these statements."

Mr. Carter says that he gets many letters from thoughtful people, who are worried by "the way the Canadian public are being brain-washed."

Other thoughtful Canadians have written to Ottawa, protesting against the insidious CBC propaganda which aims at undermining our faith and support for the very bastions of our way of life such as religion, authority, the family and civic responsibility.

To encourage Canadians to disclose their wishes to their legislators, our post office carries free of charge all letters addressed to any M.P. at the House of Commons, Ottawa. No stamp is required on letters so addressed while Parliament is meeting.

This issue is so important that every responsible Canadian taxpayer should take immediate advantage of this free mailing privilege to write to his own M.P. or even to the Prime Minister, John Diefenbaker, to express his approval or disapproval of the CBC, creating a national referendum in miniature on this topic.

REPORT FROM THE U.K.

Green Belt Areas Come Under Fire

By M. McINTYRE HOOD

Special London (Eng.) Correspondent

For The Daily Courier

LONDON—Strong criticism of the government's policy of keeping the green belts around large cities inviolate, and a declaration that Britain needs at least two entirely new large cities, instead of a number of new towns, are the key points

in a pamphlet published by the Bow Group of Conservatives. The ideas expressed in the pamphlet run exactly counter to government policy, and to the considered opinions of the town planning experts. But the Bow Group, always quick to come up with revolutionary ideas, produces strong reasons to back up its conclusions.

POLICY OUT OF DATE

"Green belt policy as it stands is out of date," the group says. "With our cities continually growing, the green belt becomes a green noose, against which pressure is so strong that either building is bound to be permitted within it, or else development will jump over it and continue beyond. There are signs that this latter process has already begun. Development is leapingfrogging the 'moats' around the cities, and forcing people to travel even farther to work."

The remedy suggested is to reshape each Green Belt so as to allow "fingers of high-density development to reach out into country parkland, and permit wedges of green parkland to penetrate to the centre of the city. Instead of their being a narrow belt within which side which is prohibited, but outside which is virtually free development may continue, the situation demands that all rural land around and between our cities should be regarded as green. We do not want Green Belts; we want a Green Britain" the pamphlet says.

BOLD PROPOSAL

Another even more bold proposal, however, from the Bow Group, is that which urges that two new cities should be established under government auspices. Each of these would be planned for an ultimate population of from 300,000 to 400,000.

One of the new cities, to relieve the population problems of Birmingham, Manchester and the north, it is suggested, should be located in Lincolnshire. The other, to relieve population pressure on the London area, would be located in the west country.

"This is the only way," the pamphlet says, "of solving the overspill problem with any reasonable speed. The existing new towns are too small, and are too near to the source of their industry and population."

"Places of 25,000 to 100,000 population, like Basildon, Harlow, Hatfield, Welwyn Garden City, Hemel Hempstead, Bracknell and Crawley, all new towns, will not be large enough to prevent themselves being sucked into orbit as satellites of the enormous London area."

The pamphlet adds this telling note:

"Planning in Britain seems to have become a vain struggle to have the growth of cities, rather than an acceptance of the fact as providing most of the possibilities and promises of modern civilized life."

By mail in B.C., \$8.00 per year; \$3.50 for 6 months; \$2.00 for 3 months. Outside B.C. and U.S.A., \$15.00 per year; \$7.50 for 6 months; \$3.75 for 3 months; single copy sales price, 5 cents.

VERNON CARNIVAL RELAY WINNERS

A victorious smile is flashed by the winners of the Minor Hockey relay racing contest Friday afternoon. The trio above — Vern Caley, Reg Main and Jim Stephens—beat out Kelowna to win the Bennett trophy.—(Interior Photo)

STOCKHOLM TRIUMPH 4-1

Smokies Outclass Swedes With Speed And Finesse

STOCKHOLM (CP) — Trillidians often protested against the rulings. The victory averaged a 4-0 loss in an earlier meeting, outclassing Sweden Thursday. However, the Canadian team's performance then likely was hampered by falling wet snow. The rink was free of the white stuff Friday.

The exhibition contest, in an outdoor rink, was plagued by penalties. The two Czech referees called 14 penalties against the Smoke Eaters and eight against Sweden—and the Canadian Darryl Sly were the other Canadian marksmen while Gert Blome scored the lone Swedish goal.

The next game for the Smoke Eaters, who will represent Canada in the world hockey tournament in Switzerland next month, is at Leksand, Sweden, Sunday, probably against the same team.

THURLBY SCORES WINNER AS 'PEG WHIPS CANUCKS'

VANCOUVER (CP)—Defenceman Ron Thurlby, playing a forward position under emergency conditions, scored the winning goal here Friday night to give Winnipeg Warriors a 4-3 Western Hockey League victory over Vancouver Canucks.

Injuries to forwards Howie Hughes and Gerry James left coach Bill Robinson's Warriors with only seven forwards for the game. Hughes suffered an injured ankle in a game earlier this week and James had to retire after his first shift on the ice Friday night when he suffered a five-stitch cut on his instep.

A crowd of 4,672 watched the Canucks lose their fourth straight game, all on home ice. Other scorers for the Warriors, who at one stage trailed 3-0, were defenceman Don Ward, and forwards Gerry Blome and Gordon Labossiere. The last-named also had three assists for the seventh-place club.

Vancouver goals were scored by Orland Kurtenbach, with two, and linemate Dave Duke. The loss left third-place Vancouver five points behind Portland Buckaroos and Calgary Stampede, tied in the league lead.

Veteran goalie Harry Lumley was another big man for the Warriors, stopping 27 shots.

VANCOUVER BALKED

Vancouver goaltender Claude Evans was pulled from his net with a minute and nine seconds remaining, but the determined Warriors prevented Vancouver from getting a good scoring chance.

The Canucks led 3-0 after 10 minutes of the second period before the Warriors suddenly came to life. Labossiere, acquired from Edmonton earlier this season, showed the way. He set up goals by Ward and Brissan, and was credited with the tying goal late in the second period when a Vancouver player knocked the puck into his own net while trying to clear.

The Warriors won the game at 10:13 of the third when Thurlby moved in quickly and scored on a 20-foot shot after taking a perfect relay from Labossiere.

Quebec Bonspiel Now Into Finals

QUEBEC (CP)—The Quebec International bonspiel neared its climax today as play started in the semi-finals and finals of the Lieutenant-Governor's Trophy, the week-long meet's big prize. Meeting in the morning, semi-finals were Hugh Little of Halifax Mayflower and Jean-Louis Lacroix of Cap-de-la-Madeleine, Que., and H. W. Muter of Weston, Ont., and Gerry Jobin of Quebec. Finals in a number of minor trophies were also being played.

Centre Dave Russell paced the Trail attack with two goals. Defencemen Don Fletcher and Darryl Sly were the other Canadian marksmen while Gert Blome scored the lone Swedish goal.

PENALIZED FOR PROTEST

Eight Canadians and four Swedes were sent off the ice with penalties in the second period. Fletcher drew a 10-minute stint in the penalty box for protesting too strongly a referee's decision.

Sly and Swedish forward Sven Johansson traded blows and the Canadian was ordered off the ice for five minutes, the Swede for two.

The Smoke Eaters got off to a 2-0 lead before Sweden scored its goal. Fletcher tallied at the 13-minute mark of the first frame and Russell connected with his first goal early in the second.

Blome scored for the home squad and Russell got his second goal before time ran out in the middle frame. Sly rounded out the scoring in the third period.

Brilliant work by Swedish goalie Kjell Svensson prevented the Canadians from widening their winning margin as they kept up the pressure in the final period.

Trail goalie Seth Martin did a fine job for the Smoke Eaters, but he wasn't nearly as busy as the Swedish netminder.

Trail To Play Host City For 'Spiel Event

TRAIL—Eleven of B.C.'s top women's curling teams will match rocks at Trail Feb. 13-17 for the right to represent the province in the first Dominion Diamond "D" curling championships in Ottawa, Feb. 27-March 3.

Rinks competing for the provincial title will represent the 11 zones of the B.C. Women's Curling Association. Each rink will play 10 games in a round-robin series for the Dominion Silver "D" title.

Convener of the provincial playoffs is Mrs. F. S. Brennan, of Trail.

The B.C. champions will travel to Ottawa for the first Dominion Diamond "D" sponsored by Dominion Stores Limited and played under the auspices of the Canadian Ladies' Curling Association.

Representatives of all ten provinces will play nine 10-end games in a round-robin series for the national title.

National champions will receive Dominion Diamond "D" pins, runners-up will receive Dominion Gold "D" pins and all provincial titlists will receive Dominion Silver "D" pins.

Regina's Walker Sets Puck Record

DENVER (AP)—Fleet Jerry Walker of Regina pounded in four goals to run his season total to 34, a school record, as Denver Pioneers swamped Colorado College 11-1 in a Western Collegiate Hockey Association game Friday night.

The victory broke 5,314 fans was Denver's 18th in 20 games, including one tie, and tightened its grip on first place.

Walker now has 34 goals in 20 games and over the span of two seasons he has scored in 28 straight contests.

EIGHT POINTS IN LEAD

Canadians Continue Pace Downing Combines 8-3

KELOWNA DAILY COURIER, SAT., FEB. 4, 1961 PAGE 1

COMBINES OUT FOR OSHL LEAD - CHIEFS IN KELOWNA SUNDAY

Jim Middleton's Kelowna-Penticton combines will be "fighting hard" for a win tomorrow when they take on Kamloops Chiefs 2 o'clock in Kelowna and District Memorial Arena.

The Kelowna Squad, bolstered recently with the return of netminder Don Moog, are making a determined effort for the top spot in the OSHL standings.

"Once there, we'll hang onto it," says coach Middleton who is chiefly responsible for putting the combines into being.

Tomorrow's game, a "family affair", will see the high-scoring line of Fred Gaber, Bob Gannon and Rex Turple out to increase their goal-getting. Gaber, a flashy little hustler, is leading the league at present in the individual scoring race.

Bill (Bugs) Jones of the Combines is second. Tickets are on sale today only at Memorial Arena.

Totems Plummet From Pole With 7-1 Cougar Trouncing

VICTORIA (CP) — Victoria Cougars Friday night handed Seattle Totems a 7-1 trouncing in a Western Hockey League game here before 2,552 fans.

Doug Macauley, Bill Saunders and rookie Bert Fizzell each scored twice for the winners and defenceman Wayne Nelson got the other goal. Ed Stankiewicz, slipping in a rebound during a power play, prevented Marcel Pelletier from getting his second shutout of the season.

The win over the Totems, who had won five of their last six games, kept sixth-place Cougars six points in front of Edmonton Flyers and Winnipeg Warriors in the battle for the last playoff spot.

Totems had their only edge in the early part of the third period, but Gerry Goyer, breaking away from the Victoria blue line set up a two-on-one break with Saunders finishing the rush with a goal.

Successful penalties to Gordie Sinclair, who tripped Goyer when the Victoria centreman was in the clear, and defenceman Leo Amadio gave the Cougars a two-man advantage.

Macauley got his second goal before Sinclair's time was up, and before Gordon Tansley could return Fizzell scored his second.

North's drive from just inside the blue line appeared to deflect by Bev Bentley, having a cool night in the Seattle net.

Cougars out-skated Totems from the start, checked them solidly and were backed up when the game was still close by the fine goaltending of Pelletier.

Koehle Stars In 'Leaf Tilt'

NELSON (CP)—Sparked by the sensational work of netminder Gerry Koehle, Nelson Maple Leafs topped Rossland Warriors 5-4 before 800 fans here Friday night and took sole possession of second place in the Western International Hockey League.

The Warriors held a 2-0 lead in the first period, but the Leafs came back to tie the score 3-3 in the second and then outscored Rossland 2-1 in the final 20 minutes to gain the victory.

Howie Hornby, Fritz Koehle, Vic Polier, Les Hyssop and Bill Taylor shared the Nelson scoring with single goals.

THREE GOALS BY WIGGY

Wiggy Davis topped Rossland scorers with three goals. Laurie Bursaw added the other.

The game was the first in 13 days for the Leafs, but after a ragged first period performance they stepped up the pace and both teams provided sizzling action in the final 40 minutes.

Davis accounted for all the scoring in the opening period with his first two goals. He made it 3-0 in the second by slapping in a loose puck as he turned around the prostrate form of goalie Koehle just outside the Nelson goal crease. The Leafs then marched back to tie the score and go on to win it in the third.

Vancouver Man Heads Golf Ass'n

MONTREAL (CP) — Hillard Lyle of Vancouver is the new president of the Royal Canadian Golf Association.

He was installed at the RCGA's annual meeting Friday to succeed V. C. Holdroyd of Toronto.

Dr. J. E. Leddy of Saskatoon was elected first vice-president. It was disclosed at the meeting that L. V. (Paddy) Kavanagh of Toronto has been appointed secretary-treasurer and manager succeeding C. D. (Robbie) Robinson who after five years with the association is leaving to engage in private golf architectural business. He will continue, however, with the RCGA as director of green section.

New officials joining the RCGA board include Arthur D. Davis, Calgary, and C. L. Jones, Winnipeg.

PENTICTON (CP) — Vernon

Canadians continued their torrid pace in the Okanagan Senior Hockey League Friday night, dumping Kelowna - Penticton Combines 8-3 here. The result pushed Vernon eight points ahead of the second-place Combines.

Merv Bidoski and rookie Mickey McDowell led the Canadians with two goals each. Sherm Blair, Brian Casey, Art Davidson and playing-coach

Odle Lowe added singletons.

FAST PACE

The game opened at the break-neck pace with both squads just missing on numerous scoring attempts. Roche opened the scoring for the Combines with a deflection of a blue line shot by Mike Durban at 5:42.

McDowell levelled the count at 9:36 and Bidoski moved Canadians in front with a breakaway goal while Kelowna-Penticton had a man advantage.

The second period was all Vernon as Blair, McDowell and Casey counted without a reply from the Combines. Lowe put Vernon further in front on a solo rush early in the third. Then Middleton replied for the Combines.

The Canadians moved into a commanding lead on goals by Davidson, with the Combines two men short, and Bidoski.

Roche closed the scoring for both teams, getting the third Combines' goal.

Kelowna-Penticton held a wide margin in shots 38-26 and took seven of the 11 penalties.

REMEMBER WHEN...

Frank Calder, president of the National Hockey League since its inception, died in Montreal 18 years ago today after being stricken with a heart attack at the governors' meeting in Toronto. Calder, an outstanding figure in the development of the world's top professional hockey league, was succeeded by Mervyn (Red) Dutton. In the 1936-37 season Calder put a trophy bearing his name into competition. It is annually awarded to the top rookie in the league.

HUNGRY CONGOLESE CHILDREN

Youngsters of the Congo's Baluba tribe reach for the scanty rations of dried fish and palm oil being distributed last week by Leslie Kirkley, an official of a famine relief group aiding the United Nations to combat starvation conditions in Kasai province. The hungry youngsters are being sheltered at a refugee center in Mabi, in the Congo's southern Kasai province.

Your Meals Can Provide Full Or Empty Calories

By IDA JEAN KAIN

An ancient ruler regularly checked the weights of his wives by their footprints in the sand. A too-deep imprint presumably banished them from the court and exotic meals until they lightened the load. To bring it up to date, he curbed their calories.

Weight is always an unerring index as to whether the food consumed furnishes the right number of calories, too many, or too few. Since excess calories are stored as fat, calorie intake will always be the key to weight control.

The calorie is the unit for measuring the fuel value in a given food. Three kinds of substances furnish the fuel needed for energy . . . protein, carbohydrates (sugars and starches), and fats. Any food's calorie value depends upon which substance predominates, protein, carbohydrates, or fat. Fats are highest in fuel. Specifically, one ounce of fat yields 255 calories, while one ounce of protein or carbohydrate furnishes 113 calories.

TABLE SPREAD

In terms of food, an ounce of table spread provides more than double the calories in an equal amount of sugar or starch. For example, a glass of whole milk counts 185 calories, while a glass of skim milk or buttermilk counts only 85 calories. Why? The fat has been removed. Another example: a medium-sized potato, which is

starch, furnishes 100 calories. But when a pat of fat is mashed in, the calories double.

Nutritionists speak of full calories and empty calories. The foods which furnish protective nutrients along with their fuel content can be called full calories — they provide their full share of proteins, essential minerals, or vitamins. This dietitian likes to think of them as bargain calories . . . for they furnish an abundance of protective nutrients as they furnish fuel for go-power.

Today, knowledge of the nutrients in foods is equally as important as knowing the cal-

orie value.

FUEL MEASURE

Fuel measure gives no clue regarding the quality of the calories furnished. Choosing foods solely for their calorie value would be like buying a yard of cloth without knowing you were getting cheesecloth or pure silk.

Back in the vigorous days—before the automobile and modern conveniences—so much fuel was used one could eat anything he liked. Now we must be more careful about the source of our calories so that essential nutrients will be provided within our fuel requirements.

That brings us right back to good food habits. When our food preferences are for foods which keep us well nourished without supplying an overabundance of fuel, weight is maintained at the right level.

AROUND TOWN

Dr. and Mrs. Kenneth E. Geis, Abbott Street, are the proud parents of triplets. The two sons and one daughter were born in the Kelowna General Hospital on Friday morning, February 3, and it is believed that these are the first triplets ever to be born in Kelowna. Dr. Walter Anderson was in attendance.

Mr. and Mrs. G. E. Strohm left on the Friday morning plane for Vancouver. From there they will fly to New York, then travel by jet to the West Indies where they will visit Barbados, Trinidad and Antigua before returning home in about a month's time.

Mrs. G. A. C. Walley and her daughter Mrs. W. D. Coulter entertained at the tea hour on Thursday in honor of Mrs. Walley P. Lightbody, the former Marrietta Anderson of Kelowna, daughter of Dr. and Mrs. Walter Anderson. Mr. and Mrs. Lightbody who were married last December in Kelowna are now residing in North Vancouver.

An eight pound son was born to Dr. and Mrs. Robert F. Hetherington of Kingston, Ontario, on Saturday, January 28, a brother for Shawn and Jamie. Dr. Hetherington is the son of Mrs. Christopher Reid of Kelowna and the late Dr. Hetherington of Victoria.

Mr. and Mrs. Christopher Reid are enjoying a holiday at the Coast and are staying in the Vancouver home of Mr. and Mrs. F. W. Kirkland, former Vernon residents, while the Kirlands are travelling.

Mr. and Mrs. Maurice Meikle entertained at super on Friday evening in honor of Miss Marie Jaeger whose marriage to Mr. Barrie Black will take place on February 18.

Brigadier General A. C. Critchley who has just returned from Australia has been staying at the Vancouver Hotel, where he was joined by his son-in-law and daughter Mr. and Mrs. J. Bruce Smith of Kelowna. General Critchley is on his way home to England.

Mrs. Harry Martin, Bernard Avenue, arrived in Vancouver on Thursday when the S. S. Oriana docked. Mrs. Martin has been travelling since last October and has visited Japan, Hong Kong, the Philippines, Australia, New Zealand, the Fiji Islands and Honolulu. She will remain in Vancouver a few days before returning home to Kelowna.

The Kelowna and District Fish and Game Club will hold their Annual Game Banquet on Saturday, February 18, at the Kelowna Aquatic. This is an event you should not miss if you are interested in unusual game dishes. Tickets may be obtained at Longs Super Drugs.

The Dr. J. W. Knox Chapter of the I.O.D.E. will hold an afternoon and evening tea and Fashion Show at the Capri Motor Inn on April 19.

Mr. and Mrs. H. Beale, Burne Avenue have returned from a trip to Vancouver Island. While there they attended the wedding of their son Mr. Dennis Beale to Miss Alburn Burtstrom at Cowichan Lake, and also spent several weeks in Victoria.

OKANAGAN MISSION

Mrs. George Mills, Burneby Road, has returned to her home after staying at Gilbert Plains, Manitoba, where she was called due to the death of her mother.

The executive of the Ladies' Auxiliary to the Community

WESTBANK

Recent visitors at the home of Mr. and Mrs. W. H. Hewlett and Mr. and Mrs. Albert Hopkins were Mr. and Mrs. Vernon Hopkins and family. Vernon Hopkins attended school in Westbank, later joining the Forestry Dept. For the past seven years he has been Forest Ranger at Invermere, and has now been transferred to Lumby.

Mr. Gordon Hussey had the misfortune to injure his back in a logging accident and is a patient in the Kelowna General Hospital. We wish him a speedy recovery.

Hall, are holding a meeting at the home of the president, Mrs. R. Elder, Pinegrove Estates, on Monday, February 6. The meeting will discuss proposed plans for the spring, and arrange for the raffle of a cannister set and carafe. These items will be drawn for on March 3. Proceeds will go towards purchasing more flatware for the kitchen of the Community Hall.

National Council Of Women Opposed To Trading Stamps

OTTAWA (CP)—The National Council of Women of Canada sold Prime Minister Diefenbaker today it is opposed to the use of trading stamps in business.

"The issuing of trading stamps is an undesirable form of advertising, as the inference is that the customer is getting something for nothing, which is not the case," the council said in a brief.

"The use of trading stamps is largely in food stores, thus adding considerably to the food bill of all families, whether or not these families are interested in saving for the premiums offered."

In other fields the council asked the federal government to: 1. Enact legislation to control the sale of carbon tetrachloride, requiring that it be sold in unbreakable containers with labeling setting out its "deadly qualities." 2. Take steps to see that

sex offenders receive psychiatric treatment "to the end that every effort will be made to prevent them from being repeat offenders after having gained their freedom."

3. Prepare amendments to the Criminal Code aimed at making it mandatory for convicted persons to pay their fines by instalment in certain cases, rather than go to prison.

A SPECIAL PUBLIC MESSAGE

If you enjoy good health you will forget, all too soon, what little interest this message has evoked. But there is a group who will not forget . . . tomorrow, or the day after. These are the workers of the Health League of Canada. Mainly voluntary, they comprise a group endorsed by the Governor-General, Minister of Health, Doctors and lay citizens.

They can, and do, represent public opinion on matters affecting your health . . . pasteurization of milk, artificial respiration, fluoridation, immunization, and many other preventive measures. In the industrial field alone, it is estimated that last year Canadians lost 154,881 working days through illness which might well have been prevented.

YOU CAN SUPPORT THIS WORK IN TWO WAYS!

1. Look after your own health and that of your employees.
 2. Encourage the work of the Health League of Canada by becoming a member of the league.
- Government approved, it offers literature on specific problems, and a bimonthly magazine that is quoted throughout the civilized world. At a very small cost, you can do a very great service to yourself, and to those you love.

This important message is sponsored by the
health-minded business firms
listed at the right . . .

The True Bread

ILLUSTRATED SUNDAY SCHOOL LESSON

By Alfred J. Boescher

Scripture—John 6

Jesus went over the sea to Galilee, and a great multitude followed Him because they saw the miracles He did on the diseased.—John 6:1-2

"And Jesus went up into a mountain, and there He sat with His disciples. And the Passover, a feast of the Jews, was nigh."—John 6:3-4

"When Jesus then lifted up His eyes, and saw a great company come to Him, He said unto Philip, Whence shall we buy bread?"—John 6:5

Christ took from a lad there five loaves and two small fishes, with which He fed all the multitude.—John 6:5-13

FUTURE PROMISING

St. Paul's Views Year

The annual meeting of the congregation of St. Paul's United Church took place recently in the church hall with reports being given from the various departments.

There have been 44 baptisms, 18 funerals, and 27 marriages. A number of new members have been received both by transfer from other churches and by profession of faith.

The women's organizations, including the five circles, have contributed more than \$650 for new chairs for the Sunday school and for choir gowns, as well as other amounts for church expenses. Mrs. G. A. R. McKinley is the new Federation president.

The Sunday school has grown to an enrolment of 230 with a full complement of teachers and officers. An orphan boy is being partly supported in West Africa and other projects undertaken.

The Canadian Girls-in-Training under Mrs. Whitbread and

Mrs. McClelland have large group and the Explorers under Mrs. William Wintonyk and the Mission Band led by Mrs. R. L. Sharp are very active. The Cub and Scout groups with Verne Johnson, George Howie, Jim Middleton, Frank Hoskins and others have been energetically trying to keep the groups going in spite of some difficulties.

As this past year marked the end of the connection between First United and St. Paul's, resolutions of appreciation were passed regarding the generosity of the parent body in enabling St. Paul's to achieve independent new and active congregation.

Particular mention was made of the part played by Harry Mitchell and the Committee of Stewards of First United Church.

Owing to the approaching retirement of Mr. Perley, the Sunday work is being carried on by Lionel North and Rev. Sidney Pike, in conjunction with Mr. Perley.

The congregation is now facing a campaign for funds in February to make possible a much needed Christian education centre and in all, the future looks promising for this St. Paul's to achieve independent new and active congregation.

FAMILY SERVICE ON SUNDAY AT FIRST UNITED CHURCH

The Boys Choir and Junior Girls Choir will combine to lead the praise at First United Church 9:30 a.m. Sunday. Theme of the service will be the family.

"The purpose of this service," says Rev. E. H. Birdsall, minister, "is that the whole family may worship together in church. All classes and departments of the Sunday School are to be withdrawn in order to achieve this goal."

This will be the one Sunday in the month when the Senior Choir leads the evening congregation.

Church Choir Picks Officers

Members of the St. Paul's United Church choir elected their slate of officers for 1961 at a social gathering Thursday night, in the ladies' parlor.

New executive includes: Mrs. A. Iverson, honorary president and choir director; Garth Illman, president; Mrs. R. L. Sharp, vice-president; Miss Peggy Cousins, secretary-treasurer and H. Hudson, librarian.

Other officers are: Mrs. R. C. Wannop, social convener and section directors Mrs. R. G. Illman, Mrs. R. J. Bailey, James Pope and Charles Faulkner.

A general discussion was held on various phases of choir work and plans were formulated to attend the forthcoming Kelowna Mens' Choir concert as a group.

A Benign Church Mentor

By GEORGE W. CORNELL

NEW YORK (AP)—A man of rigorous intellect, Rev. Dr. F. Eppling Reinartz, gives first place to the tender touch. He is a practical planner, who prefers poetry. He is a moulder of institutions, who is interested in individuals. He deals with large matters, but respects the small.

This diligent, benign churchman, who has played a major role in the maturing of Lutheranism and in the growth of the Christian unity movement, took on a new task this month—training young ministers.

"We want to inculcate a person-minded ministry," he said, "a ministry that sees its obligations to human beings as individuals, one at a time, apart from all others."

In Dr. Reinartz' view, as he takes up his new post as president of Lutheran Theological Southern Seminary at Columbia, S.C., the modern emphasis on organizational affairs, instead of individuals, is undermining the church.

"The Christian movement," he said, "is losing its essential power as it becomes increasingly group- and mass-minded instead of person-minded. It's the heritage of the age in which we live."

MAMMON'S INFLUENCE
Dr. Reinartz, for 14 years secretary of the United Lutheran Church in America and an influential figure in inter-church co-operative affairs, also has other firm ideas for shaping new men of the cloth.

"We want to implant in these young men the awareness that success is not necessarily success," he said, "the loss of its essential power as it becomes increasingly group- and mass-minded instead of person-minded. It's the heritage of the age in which we live."

Under present pressures, he said, church leadership often is described in public functions as arranging suppers, increasing attendance, on a sort of "restaurant business" basis of success.

"The ministry," Dr. Reinartz said, "must be big enough and strong enough to rise above these mechanical and artificial measurements of effectiveness."

Beyond this, he said, "I hope our graduates will be marked very quickly by compassion"—by a constant concern for the lonely, the afraid, the neglected.

"One of the great hallmarks of religion ever since Jesus uttered the parable of the good Samaritan has been an outgoing, healing ministry to the broken things of life."

A familiar sight... men with briefcases daily throng airports all over the nation, winging their way from one place to another. But where, really, are they going?

In this busy age of appointments, rush hours, and summit meetings, we search for success, for more money, for a better future, for a variety of things. Yet, like so many mid-twentieth century Americans, the harder we seek the less we find.

We need a job, a purpose, a home, a family. But also, we need a church. We need to go into that church to reaffirm our faith both in God and in our fellow beings. Only then does our quest—and our ultimate destination—begin to make sense.

Going?

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Genesis	28	15
Monday	Psalms	139	7-10
Tuesday	Philippians	2	3-8
Wednesday	Matthew	7	7-8
Thursday	Romans	8	27-29
Friday	Psalms	6	7-8
Saturday	John	14	1-4

DAILY CRYPTOQUOTE — Here's how to work it:

AXYDLBAAX
LONOFELLOW

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

Corkscrews For Sinus Troubles

By BURTON H. FERN, M.D.

How can you relieve that bone-crushing sinus misery which comes every winter? To help your nose warm and moisten air, Nature has hollowed out four bony caves (sinuses) that open into each nostril. The lining inside the nose spreads into each sinus to provide wall-to-wall covering. Each sinus resembles a wine bottle with a narrow neck. Infection, allergy or irritation often corks this narrow neck with swollen lining. Infection soon blooms in the stopped-up sinus. The irritation can start in many ways.

IRRITATING FACTORS

A sudden gush of water up the nose irritates the sinuses of high divers. When you blow your nose hard, mucus blasts into the sinuses. Overheated homes and desert climates can dry the sinus until germs grow like cactus. Eventually, germs and secretions combine into a bone-breaking pressure. This often pushes a small trickle down the back of your throat and into your bronchial tubes—a post-nasal drip.

DOUBLE TROUBLE

That tickling cough which gags and chokes you each wintry morning often stems from sinus trouble. The doctor may have to attack your sinus infection to clear up chronic bronchitis and other lung troubles. For sinus trouble, all the antibiotics in the world aren't worth one good medical corkscrew. If the doctor can unplug the Fern in care of this newspaper.

sinus, most of the infection will pour out. He'll probably prescribe antibiotic germ-killers, also.

SHRINK SWOLLEN LINING

Nose drops and sprays can pull the cork by shrinking the swollen lining. The sprays have to be aimed upwards and the drops dripped in with the head bent back to help the medicine float "down" to the top of the nose.

One of the newest nose sprays includes a special plastic tip which fits snugly into the nostril. By following simple directions, the gadget builds up enough pressure to force the spray into any blocked sinus and then vacuum each sinus clean.

WORK FROM INSIDE

Today, your doctor can even prescribe nose-drop pills which do an inside job. Soap after you gulp down a tablet, nose drops circulate throughout your system, shrinking your sinus lining.

Old-fashioned prevention still beats any modern cure. Blow your nose lightly, one nostril at a time.

Keep your home moist—your may have to vaporize a gallon of water a day in each room.

Dr. Fern's mailbox is wide open for letters from readers. While he cannot undertake to answer individual letters, he will use reader's questions in his column whenever possible and when they are of general interest. Address your letters to Dr. Fern in care of this newspaper.

The bidding:
East South West North
Pass 1NT Pass 3NT

Opening lead—six of diamonds.

It is a bad proposition for declarer to put himself to a guess in the play of a particular hand, if he has at his command a way of avoiding the guess.

Here is a case where it is easy for declarer to go wrong unless he takes proper precautions to avoid a guess.

Let's say West leads a diamond and South wins the jack with the king. Declarer sees he has only five immediate winners and that he must therefore establish both his hearts and clubs if he is to make the contract.

The hearts and clubs are equal in strength and can each develop three tricks by forcing out the ace. But the fate of the hand depends upon which suit declarer attacks first.

Thus, if South leads the king of clubs at trick two, he goes down. East takes the ace, returns a diamond, and West's long suit becomes established as soon as declarer wins the ace. South has only eight tricks available and whenever he gets around to leading hearts, West grabs the ace and runs his diamonds to defeat the contract.

But if declarer attacks hearts at trick two, he makes the hand. This is because he removes West's entry card before the diamonds are established, and West therefore ceases to be a threat. South can make 11 tricks if he guesses to start with hearts instead of clubs.

However, South should not subject himself to this grueling choice. All he has to do to avoid it is let East win the opening diamond lead. Then, regardless of how the defense goes, or whether South attacks hearts or clubs first, he winds up with ten tricks.

The hold-up play breaks an important link in the defenders' communications. If East gets in first (with a club), he does not have a diamond to return, while if West gets in first (with a heart), he is left without an entry to run his suit after he establishes it.

Bone Transplanting Room Being Built By Cancer Group

SAINT JOHN, N.B. (CP) — A room in which medical patients may be submerged or bathed in radioactive rays to facilitate the transplanting of bone marrow, is being built in Winnipeg by the Manitoba Cancer Treatment and Research Foundation.

Foundation doctors, R. J. Walton and A. F. Holloway, today described the special construction and their research in "whole body irradiation" to a meeting of the Canadian Association of Radiologists.

The technical paper said the foundation's program includes a study of whole body irradiation and its effects on animals, but it is hoped to extend their work to human patients on whom the difficulties of obtaining uniform

fields of radiation over the entire body are greater. On small animals, uniform radiation was quite easily achieved.

The scientists said lack of "true whole-body treatment" has apparently been a contributing factor to marrow transplant failures in the past and the reason for rejection of such transplants for many patients.

The treatment room makes use of three main radiation sources placed in each corner of the room and two smaller sources, one below the central floor area and one above. Now the scientist propose to place the operation just outside the radiation area shielded by a three-foot thick concrete wall.

YOUR HOROSCOPE

FOR TOMORROW

A variable day. In the morning and during the daytime be on the lookout for tricks; be circumspect with those you meet; pay strict attention to business. Late evening favors music, art or just entertainment.

FOR THE BIRTHDAY

If tomorrow is your birthday, your horoscope indicates that the year ahead is outstanding in this way: There will be periods interspersed throughout the year when you can spend money more freely than previously. Your greatest wish can be fulfilled in March.

In July you will travel, and be left with treasured memories, whether of gray days at sea or city night life. It's an individual matter. What the stars indicate is merely that you will travel. If you do some work during the current months, try to keep to finishing old jobs rather than starting new ones. You will need some rest at that time. A child born on this day will have determination and a penetrating mind. This child would

make a good doctor or chemist.

THE DAY AFTER TOMORROW

This is a day in which progress can be made in struggles for good causes. It is a time when you are most apt to sway people politically. However, be restrained in what you say.

FOR THE BIRTHDAY

If Monday is your birthday, your horoscope indicates that during the coming year you will be under comfortable protection. Financial security should fill up your needs and if you are conservative about the use of money, you should be "on top of things" by the end of 1961. The trend favoring financial endeavor continues through August. Make the best use of it while you can.

An increase in income will make it possible to have the social accessories you need, but you shouldn't be pretentious with those who know you well. March is likely to be the high point of the year for you. A child born on this day would make a good actor, tragedian or business executive.
